## ANDREW H GREEN FATHER OF GREATER NEW YORK DEAD

New York, Nov. 13.—Andrew H. Green, "Father of Greater New York," and one of the city's oldest and most remarkable citizens, was shot and instantly killed on the steps of his home on Park Avenue today by Cornelius M. Williams, a negro, who is believed to be insane. The shooting was evidently the outcome of an insane delusion on the part of the negro that Mr. Greene had slandered him, for

when he was asked why he had committed the murder, he replied: "I did it to save my character." The colored man was hurried to the station house, where he was subjected to a searching examination, the result of which left no doubt of the negro's insanity. Besides a revolver the police found Williams in possession of a razor and a purse containing \$10.

## FRANK SARGENT IS STRICKEN AIMED AT THE THE ANARCHISTS

Commissioner General of Immigration Attacked With Paralysis on Saturday—Much Better Yesterday. Washington, Nov. 13.—Frank P. Sargent, commissioner general of immigration, was stricken with paralysis last night at his home in this city. The attack was believed to be severe, and several physicians were called.

Today Mr. Sargent began to improve, and this evening he is much better. Surgeon Gen. Rixey of the navy was called in, and is one of the attending physicians. It is believed that Mr. Sargent over-exerted himself in connection with his work at the immigration conference, which had been in session in this city all the week. He is one of President Roosevelt's appointees from the ranks of organized labor, having succeeded T. V. Powderly.

## HUGH PRICE IS ACQUITTED

Free on Account of Variance in Testimony. General Hugh Price, ex-surveyor general of Arizona, was acquitted Thursday in the United States court at Phoenix, on a charge of having accepted a bribe in connection with the administration of the affairs of his office while surveyor general of the territory.

The trial has been in progress three days and Thursday afternoon the prosecution rested. General Almsworth, counsel for Price, moved an instruction from the court to the jury to acquit owing to a variance between the proof and the indictment. The matter was taken under consideration and at 9 o'clock yesterday morning, the motion was denied.

The trial then proceeded. The counsel for Price renewed his motion for an instruction to the jury to acquit on grounds of variance again, the prosecution having failed to find that the money in question, \$460, was received by Price before the work was completed. It was contended that if the money was received after the work had been completed that it would not have influenced Price in his official work.

The court took the motion under consideration and later in the afternoon sustained the motion and instructed the jury to acquit, which was accordingly done.

Miss Emma Miller of Tucson was the principal witness in this case against Price. The counsel for Price moved a continuance of the next case against Price, No. 604, until the next term.

United States Attorney Nave opposed the motion, but later, on a showing being made as to the critical physical condition of General Price, consented to have the case go over until next term.

Three physicians of Phoenix made affidavit that Price was suffering from locomotor ataxia and that it would endanger his life to go through the ordeal of another trial. This case will be resubmitted to the next grand jury.

The Murphy cases will also go over for the term, as the United States attorney desires first to get a decision in the Price cases. While the acquittal was secured on a technicality, yet it has caused rejoicing among Price's friends in this city, who are confident that he will never be convicted.

**THE METAL MARKET.**  
New York, Nov. 13.—The closing quotations today were: Silver, 57 3/4c; Mexican dollars, 44 1/4c.

## PRESIDENT OF COLUMBIA INTENDS TO MIX IT UP WITH ISTHMIANS

Guayaquil, Ecuador, Nov. 13.—Gen. Plaza, the president of Ecuador, has cabled to President Marroquin of Colombia recent events on the isthmus of Panama, thanking Gen. Plaza, and adding that Generals Reyes, Caballeros, Ospina and Holguin are marching on the Isthmians.

Lima, Peru, Nov. 13.—The Colombian minister to Peru has published here cablegrams received from his government and dated at Bogota, Nov. 10, 11 and 12, respectively. The cablegrams say that the Colombian government has taken active measures to suppress the Isthmian traitors, and that all parties and classes have offered to the government their lives and properties in defense of the national territory.

## PEACEABLY IF WE CAN FORCIBLY IF WE MUST BUT TAKE IT WE SHALL

### THAT IS THE POSITION OF PRESIDENT ROOSEVELT IN ISTHMUS SITUATION

Washington, Nov. 13.—For several weeks President Roosevelt has had in preparation his annual message to congress, to be presented at the opening of the regular session, on the first Monday of December. That part of the message in which the president discussed the negotiations between the United States government and the government of Colombia for the Isthmian canal treaty, it is said was completed about two weeks ago. Events which have occurred on the isthmus and in this country since that time have made it necessary for the president completely to rewrite that part of his message touching the canal negotiations. In the discussion of negotiations with Colombia, a

president said: "It seems evident, that in a matter such as this, we should finally decide which is the best route, and if the advantages of this route over any other possible route are sufficiently marked, we should then give notice that we can no longer submit to trifling or insincere dealing on the part of those whom accident of position has placed in temporary control of the ground through which the route must pass; that if they will come to an agreement with us in a straightforward fashion, we shall in return act not only with justice, but with generosity; and that if they fail to come to such an agreement with us, we must forthwith take matters into our own hands."

## NO CHANGE PARTICULARLY IN COLORADO COAL STRIKE

Trinidad, Nov. 13.—For the first time since the strike of coal miners in this district was declared on Monday, J. T. Kebler, general manager of the Colorado Fuel and Iron company, is said to have made advances to effect a settlement.

Today it is authoritatively stated, he requested the striking miners to appoint a committee of five men to confer with him in his office in Trinidad. This proposition was rejected by the men, who say the United Mine

Workers of America must be recognized before any settlement can be made. Many rumors were afloat today, and one was to the effect that the operators had acceded all the demands of the men, with the exception of the recognition of the Union, gained considerable credence, and caused a sensation on the streets this evening. This, as did others, proved to be incorrect, and was promptly denied by both operators and Union officials. No settlement is in sight at this time.

# SPECIAL

## THE BIG COAL STRIKE IS PRACTICALLY SETTLED

**SPECIAL DISPATCH TO THE REVIEW.**  
Louisville, Colo., Nov. 14.—The strike in the Northern Colorado coal fields was practically settled tonight when an agreement between the operators and representatives of the miners was reached after a session lasting from 3 o'clock p. m. until nearly midnight. An eight-hour day is granted, with the provision that if the fight for same concession in the southern field fails, then the old hours shall be restored here. The scale of wages agreed upon is an increase of about 10 per cent. The agreement will be voted upon by the various unions in this district tomorrow night, and if accepted work will be resumed Monday.

## WALTER McCURDY IS ACQUITTED

Tucson, Ariz., Nov. 13.—Hermosillo advices state that Walter McCurdy, an American attorney who has been in a Mexican prison for nearly a year awaiting trial on the charge of forging telegrams in connection with trans-

fer of stock of the Yaqui Copper Co. was acquitted yesterday. McCurdy, however, has yet to stand trial on a charge of assault on one of the stockholders of the Yaqui Copper Co.

**WEATHER REPORT.**  
Washington, Nov. 13.—Forecast for Arizona: Fair Saturday; Sunday fair in south, snow and colder in northern portion.

**STANDS PAT.**

Havana, Nov. 13.—It has been de-

## TRYING TO SETTLE STREET RAILWAY STRIKE BY MEANS ARBITRATION

Chicago, Nov. 13.—Twenty-five cars were run on the Westworth Avenue line without damage to cars or injury to non-union men operating them, was what the Chicago City Street Railway company was able to accomplish today with the assistance of the police department. While there was active interference with the handling of the cars such as attended attempts to run the cars yesterday, crowds that lined the streets jeered and hooted police and non-union men also, without intermission.

The situation was complicated for the company today by a sudden strike of foremen employed in six of the

power houses owned by the company. During the afternoon an effort was made to bring about a peaceful adjustment of the strike. The members of the state board of arbitration called upon Manager McCulloch, and upon the latter's suggestion went into a conference with E. E. Bliss, counsel for the company, with the hope of arranging a settlement, or at least having a conference between the strikers and the officials of the road. Nothing definite was accomplished at the conference, but another meeting has been arranged for tomorrow when a second attempt will be made to have the controversy settled by arbitration.

## B. F. FOWLER IS IN WASHINGTON ATTACK PRESIDENT ON PANAMA ACTION

**PUSHING THE BUILDING OF TONTO FREIGHTING ROAD.**  
(Special to the Review.)  
Washington, D. C., Nov. 13.—B. F. Fowler of Phoenix arrived here today for the purpose of pushing the enabling act, granting to the cities of Phoenix, Tempe and Mesa the powers to vote bonds to construct the Tonto freighting road.

This refers to a previous special dispatch of Wednesday to the Review, containing the information that a bill had been presented to congress authorizing the appropriation of an amount necessary to the construction of the road. Mr. Fowler represents the Water Users' Association and the Tonto Road committee. In an interview with your special correspondent, Mr. Fowler said: "The people of Arizona are unanimous for statehood, and they want separate statehood, too, and no junction with New Mexico. Less than two per cent of the citizens of the territory oppose statehood movement, and they represent the least progressive element. We are confident of achieving full fledged statehood at the regular session of congress."

## CALUMET AND ARIZONA.

**New Shaft to Be Put Down at Once.**  
General information.  
The directorate of the Calumet and Arizona properties have completed their investigations and are now busily engaged in perfecting their future organization. President Charles Briggs was seen last night, and said "There is nothing to say as yet. Nothing definite has been done, but as soon as possible we will let the public know everything."

A forecast of the action of the directorate was published in these columns several days ago to the effect that a mining company was to succeed the development company, that a dividend would be declared, and that the interchange of stock would be at the approximate ratio of 2 to 1.

Further than this it has been decided by the men at present on the ground to commence the sinking of a new shaft on the Calumet and Pittsburg before the first of the new year and before 1904 has become very far advanced this company will be taking out ore for reduction purposes. The final payments on this property are due in December and January but the Review has it from one high in authority that the original owners are disposed to give the company their own terms, recognizing that there is no chance now for them to lose.

The party now visiting Bisbee will be here until the 18th. On that date the final action of the company will be made known to the public.

cided by the cabinet that no recognition will be given by the Cuban government to the new Republic of Panama until the republic has been recognized by some of the other Latin-American governments.

**WAGES REDUCED.**  
Lancaster, Nov. 13.—This evening notice was posted at the Pennsylvania Iron Works announcing that on and after November 16th the wages of puddlers would be reduced from \$4.50 to \$4.00 per ton, and those of other workmen proportionately.

## JUDGE MAKES ARREST.

Judge McDonald last night acted as his own policeman and detective. A Mexican saw a horse tied to a post near Tove's butcher shop, and concluded he would attach the horse to his personal property effects. The judge kept his eagle eye on the Mexican and the horse. Diaz's countryman unhitched the animal and leisurely proceeded down Naco road. This was enough for His Honor, and he stepped up and placed the man under arrest, the latter claiming "that he was just going to take the horse, or have the horse take him, down to Douglas." He didn't do either, and this morning lies in the jail awaiting a hearing before policeman, detective and judge—McDonald.

## CHICAGO VS. WEST POINT.

New York, Nov. 14.—A large number of football enthusiasts took the West Shore special to West Point today to see the game between the eleven of the University of Chicago and the military cadets. It is the only occasion in which a Western eleven will be seen in the east this season and this fact has increased the interest in the game. The Chicago team is reported in splendid shape and from all accounts will be able to make a good showing against the team of the military academy.
